One Wire Earphone Kit

(Receive only, for use with portable radios.)

Two Wire Earphone Kit

Three Wire Earphone Kit

Ideal for security at airports, casinos, manufacturing plants, crowd control at conventions and concerts, and other environments requiring discreet communications.

The **One, Two and Three Wire Earphone Kits** deliver high clarity audio and feature lightweight earphones, rubber ear tips, radio connectors and clothing clips. Flexible, high grade cables provide durability in situations from routine to demanding, and the Two and Three Wire Earphone kits deliver two-way radio transmissions that go unnoticed by others.

Mechanical Specifications:

One Wire Kit:

- Cable pull at connector end, axial: 30 lbs

Two Wire Kit:

- Cable pull at earphone, axial: 10 lbs
- Microphone/switch assembly pull, axial: 10 lbs
- Microphone/switch operating force: 1.5 – 2.0 lbs

Three Wire Kit:

- Cable pull from plug end, axial: 20 lbs
- Cable pull from PTT end, axial: 10 lbs
- Cable pull from earphone end, axial: 10 lbs

Environmental Specifications:

One, Two and Three Wire Kits:

- Operating temperature: -30° C to +75° C
- Storage temperature: -40° C to +85° C

Modular **surveillance kit earphone accessories** provide even more flexibility for users in multiple shifts sharing equipment or for those who need options when moving from a high noise to a low noise environment.

Flexible Open
Ear Inserts

Quick Disconnect
Adapter

Noise Attenuating Kit

Flexible Open Ear Inserts

- Open frame design allows users to hear ambient noise
- Molded from hypoallergenic material
- Available in three sizes and can accommodate left or right ear use
- Comfortable for long-term wear

Noise Attenuating Kit

- Provides additional hearing protection
- Certified noise reduction rating (NRR) of 25dB
- Comfortable adjustable foam ear inserts

Quick Disconnect Adapter

- Available in black or beige
- Unique cable retention feature eliminates strain on the earphone
- Allows users to easily replace or alternate acoustic tubes (e.g., multiple shift options)

Surveillance Kits and Accessories

Experience radio transmissions that are unnoticed by others around you. OTTO surveillance kits feature high quality engineering and deliver clear communication. Choose from a variety of models, perfect for discreet surveillance activity, commercial and industrial environments.

Professional Surveillance Kits

Not just for surveillance purposes, these kits are perfect for security at airports, casinos, manufacturing plants, crowd control at conventions and concerts, and environments requiring discreet communications.

One, Two and Three Wire Earphone Kits

- Lightweight earphone, rubber ear tip, radio connector and clothing clip
- Low profile, flexible, transparent acoustic tube
- Quick disconnect earphone adapter for easy replacement of any component
- Kevlar reinforced cables made with proprietary alloy for added linear and tensile strength
- Black or beige color options (certain models)

Accessories for Professional Surveillance Kits

For multiple shifts where users share equipment, or when moving from a high noise to a low noise environment, versatile options and fittings are essential. Our modular earphone accessories are adaptable and flexible.

Flexible Open Ear Insert

- Open frame design allows user to hear ambient noise
- Molded from hypoallergenic material
- Available in three sizes and accommodate right or left ear use
- Comfortably designed for long-term wear

Noise Attenuating Kit

- Provides additional hearing protection
- Certified noise reduction rating (NRR) of 25dB
- Comfortable adjustable yellow foam ear inserts

Quick Disconnect Adapter

- Black or beige color options
- Unique cable retention feature eliminates strain on the earphone
- Allows users to easily replace or alternate acoustic tubes (e.g., multiple shift operations)

“It’s more than just a product. OTTO provides outstanding customer service.”

Standard Surveillance Kits

Not just for surveillance purposes, these kits are perfect for security at airports, casinos, manufacturing plants, crowd control at conventions and concerts, and environments requiring discreet communications.

One Wire Earbud Kit

- Single earbud adjusts to fit either the left or right ear
- In-line mini PTT with microphone and clothing clip

One Wire Monitoring Kit

- Lightweight, single wire earphone kit
- Mini PTT and microphone with durable clothing clip
- High quality earphone speaker
- Quick disconnect acoustic tube

Ear Hanger with In-line Microphone

- Soft rubber ear loop with speaker
- Adjusts to fit either the left or right ear
- Clothing clip on PTT
- In-line mini PTT with microphone

Rotating Ear Hanger

Ear Loop with Ear Bud

- Single earbud with comfortable loop
- Adjusts to fit either left or right ear
- Mini PTT and microphone with clothing clip

**“Our experiences with OTTO are always good ones.
That’s why we keep coming back.”**

Wireless Accessories For Surveillance Kits

In-ear Wireless Receivers make OTTO Two and Three Wire Kits perfectly covert. The Wireless Receiver fits comfortably in the ear canal and is virtually invisible. Used in conjunction with either the Flat Pack or Neck Loop, an inductive field is created that transmits the radio's sound to the Wireless Receiver. This receiver is available in conventional or squelched models. Squelch technology minimizes electric field interference, making the unit silent in the absence of incoming transmission.

Wireless Receiver

- Wireless feature and micro antenna replaces traditional acoustic tube
- Small, lightweight unit fits comfortably inside the ear
- Includes carrying pouch, 15 wax filters, four battery packs and tools
- Conventional and squelched models available
- Available in beige or dark brown

Wireless Receiver eliminates the need for an acoustic tube

Flat Pack

- Creates inductive field that carries the transmission to the ear receiver
- Standard two-pin connector provides quick connection to a Two or Three Wire Kit

High Efficiency Neck Loop

- Creates inductive field that carries the transmission to the ear receiver
- 28" or 49" lengths available in beige color
- Standard two-pin connector provides quick connection to a Two or Three Wire Kit
